PROFILE

Computer Science undergraduate specializing in Artificial Intelligence at the University of Hertfordshire, with hands-on experience building AI, Python, FastAPI, database, web, and software engineering projects. Completed an AI internship at Innovera involving API development, application analysis, and an AI-powered CV-to-job matching system. Strong foundation in Python, Java, SQL, JavaScript, OOP, data analysis, debugging, and collaborative development.

EXPERIENCE

AI Intern at Innovera | Cairo, Egypt

July 2026 – August 2026

- Built practical AI and software projects through Innovera's AI Track Summer Internship, applying Python, APIs, data analysis, and problem-solving.
- Developed a FastAPI + SQLite Student Management API with CRUD endpoints and structured backend logic.
- Collaborated on an AI-powered CV & Job Matching System and conducted functional analysis/testing of the Inno-Kids Android application.
- Worked with Git/GitHub in collaborative repositories and documented technical findings and project outcomes.

IT Intern at TecnoGroup | Cairo, Egypt

May 2025 – June 2025

- Completed an intensive IT internship covering troubleshooting, system maintenance, technical support, and software deployment.
- Assisted with software updates across 50+ workstations and documented technical procedures for the IT team.

Teacher Assistant (ICT IGCSE) | Cairo, Egypt

Nov 2023 – April 2024

- Tutored 20+ students in Python, HTML, and databases; graded assignments and provided targeted feedback.

EDUCATION

University of Hertfordshire | Cairo, Egypt

Oct 2023 – Present

BSc Computer Science – Artificial Intelligence | Expected Graduation: 2027

Edison International Academy | Doha, Qatar

Sep 2021- June 2023

IGCSEs / High School Diploma - Overall: 87.14%

SKILLS

Programming: Python, Java, SQL, JavaScript, C++, C, HTML, CSS, Bash

AI & Backend: Artificial Intelligence, Machine Learning fundamentals, Data Analysis, FastAPI, REST APIs, SQLite, OOP

Tools: Git, GitHub, Visual Studio Code, PyCharm, Oracle APEX, Android Studio, Arduino IDE, Cisco Packet Tracer

Professional: Problem Solving, Debugging, Team Collaboration, Communication, Leadership, Public Speaking

SELECTED TECHNICAL PROJECTS

AI-Powered CV and Job Matching System (August 2026)

- Collaborated on an AI/NLP system that analyzes CV content and compares candidate skills with job requirements to support job matching.

Technologies: Python, AI/NLP, Data Processing, Git/GitHub

Student Management API (July 2026)

- Built a REST API for managing student records with create, read, update, and delete operations backed by SQLite.

Technologies: Python, FastAPI, SQLite, REST APIs

Student Management System (July 2026)

- Developed a Python-based student management application with structured data handling and core record-management functionality.

Technologies: Python, OOP, Git/GitHub

Inno-Kids Application Analysis (August 2026)

- Performed functional testing and product analysis of an Android application, documenting working features, usability observations, and defects.

Technologies: Software Testing, QA Analysis, Android Studio, Technical Documentation

CERTIFICATIONS & TRAINING

Complete Python Mastery (2025) • Introduction to AI — HP LIFE (2025) • Data Science & Analytics — HP LIFE (2024)

Introduction to Cybersecurity Awareness — HP LIFE (2024) • Understand the Basics of Code — Google (2024)

Languages: Arabic (Native), English (Fluent; Duolingo English Test 120/160)
